

MPUC No.  
Houlton Water Company  
(Electric Department)

Rate 1  
Thirteenth  
Page 1 of 2

**GENERAL RESIDENTIAL SERVICE**

**AVAILABILITY**

Service under this rate is available for all transmission and distribution electric service in private residences and apartments.

Motors up to five (5) horsepower, if not for commercial purposes, are allowed under this rate provided that starting or operation of such motors does not interfere with the quality of service rendered to other customers. Customers with capacity requirements in excess of twenty (20) kilowatts will be served under terms of Rates 9 or 10.

**CHARACTER OF SERVICE**

Single phase, 60 Hz, at available secondary voltage.

**MONTHLY RATE**

The monthly bill for service rendered shall be the sum of the Minimum Charge which includes up to 50 kWh of delivery service; the T&D rate per kilowatt hour for all additional kWh; and the Transmission Adjustment as described in Rate 14. The charges are as follows:

Minimum Charge	\$11.50 per month	I
T&D Rate	\$0.03585 per kWh	I

Any customer whose annual consumption is ten (10) per cent or more of the utility's total system consumption in the preceding calendar year is subject to a charge equal to the currently effective T&D rate per kWh levied on seventy (70) per cent of the customer's highest monthly consumption in the preceding twelve months.

Proposed Effective Date: March 15, 2024  
Effective Date: \_\_\_\_\_  
MPUC Docket No: 2023 - 00256

HOULTON WATER COMPANY  
  
Greg Sherman, General Manager

**TERMS**

- (1) Service hereunder is subject to the Standard Terms and Conditions of the Company.
- (2) The Company reserves the right to bill customers on a bi-monthly or quarterly interval. Under these conditions, the minimum charge and delivery service rates will be multiplied by the number of months in the billing period. The Transmission Adjustment shall be the average during the applicable months.
- (3) If the Company permits (as it may under unusual circumstances) more than one set of living quarters to be served through one meter, the kilowatthours in each block shall be multiplied by the number of separate living quarters so served.
- (4) Electric space heating equipment served under this rate shall be permanently installed and shall conform to the Company's requirements. Resistance space heating shall not total more than five (5) kilowatts on one thermostatic control.

**TERMS OF PAYMENT**

- (1) The above rates are net and due upon presentation.
- (2) This rate is subject to the Late Payment Charge Rate 15.

**COMMERICAL LIGHTING SERVICE**

**AVAILABILITY**

Delivery service under this rate is available for commercial lighting, incidental heating and appliances requiring up to twenty (20) kilowatts of capacity.

**CHARACTER OF SERVICE**

Single phase, 60 Hz, 120/240 volts and, where available three phase, 208 volts wye, 240 volts delta and 480 volts wye or delta.

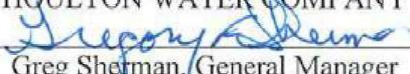

**MONTHLY RATE**

The monthly bill for service rendered shall be the sum of the Minimum Charge which includes up to 50 kWh of delivery service; the T&D rate per kilowatt hour for all additional kWh; and the Transmission Adjustment as described in Rate 14. The charges are as follows:

Minimum Charge	\$11.50 per month	I
T&D Rate	\$0.03585 per kWh	I

Any customer whose annual consumption is ten (10) per cent or more of the utility's total system consumption in the preceding calendar year is subject to a charge equal to the currently effective T&D rate per kWh levied on seventy (70) per cent of the customer's highest monthly consumption in the preceding twelve months.

**SMALL POWER SERVICE**

**AVAILABILITY**

Service under this rate is available to any commercial or industrial customer for all power purposes requiring more than twenty (20) kilowatts of capacity.

**CHARACTER OF SERVICE**

Single phase, 60 Hz, 120/240 volts and, where available, three phase, 208 volts wye, 240 volts delta and 480 volts wye or delta.

**MONTHLY RATE**

The monthly bill for service rendered shall be the sum of the Minimum Charge which includes up to 50 kWh of delivery service; the T&D rate per kilowatt hour for all additional kWh; and the Transmission Adjustment as described in Rate 14. The charges are as follows:

	Service Provided using Transmission and distribution Facilities of the Company	Services Provided using Transmission facilities Of the Company
Minimum Charge	<b>\$11.50</b>	<b>\$11.50</b>
T&D Rate	<b>\$0.03585</b>	<b>\$0.01921</b>

I  
I

Any customer whose annual consumption is ten (10) per cent or more of the utility's total system consumption in the preceding calendar year is subject to a charge equal to the currently effective T&D rate per kWh levied on seventy (70) per cent of the customer's highest monthly consumption in the preceding twelve months.

**PRIMARY METERING**

Where energy is metered on the primary side of the distribution transformer, the kilowatt hour consumption will be reduced by three percent (3%) when determining the monthly bill.

POWER FACTOR

The charges above are based upon the customer maintaining an average monthly power factor of 95% or greater. Whenever the average power factor as determined by the Company's metering facilities is less than 95%, the charges for such month will be increased by three percent (3%) for each variation of power factor below 95%.

TERMS

Service hereunder is subject to the Standard Terms and Conditions of the Company.

TERMS OF CONTRACT

Not less than one (1) year. Selection of Rate Schedule shall be for a minimum period of twelve (12) months.

TERMS OF PAYMENT

- (1) The above rates are net and due upon presentation.
- (2) This rate is subject to the Late Payment Charge Rate 15.

**LARGE POWER SERVICE**

**AVAILABILITY**

Service under this rate is available to any commercial or industrial customer for all power purposes requiring more than twenty (20) kilowatts of capacity and taking service through one metered service for their entire energy requirements.

**CHARACTER OF SERVICE**

Single phase, 60 Hz, 120/208 volts wye, 120/240 volts, 277/480 volts, 2400/4160 volts and 7200/12470 volts where available.

**MONTHLY RATE**

The monthly bill for service rendered shall be the sum of the Minimum Charge which includes up to 50 kWh of delivery service; the T&D rate per kilowatt hour for all additional kWh; and the Transmission Adjustment as described in Rate 14. The charges are as follows:

	Service Provided using Transmission and distribution Facilities of the Company	Services Provided using Transmission facilities Of the Company	
Minimum Charge	\$46.00	\$46.00	I
T&D Rate	\$0.03585	\$0.01921	I

Any customer whose annual consumption is ten (10) per cent or more of the utility's total system consumption in the preceding calendar year is subject to a charge equal to the currently effective T&D rate per kWh levied on seventy (70) per cent of the customer's highest monthly consumption in the preceding twelve months.

**PRIMARY METERING**

Where energy is metered on the primary side of the distribution transformer, the kilowatt hour consumption will be reduced by three percent (3%) when determining the monthly bill.

**POWER FACTOR**

The charges above are based upon the customer maintaining an average monthly power factor of 95% or greater. Whenever the average power factor as determined by the Company's metering facilities is less than 95%, the charges for such month will be increased by three percent (3%) for each variation of power factor below 95%.

**TRANSFORMER OWNERSHIP**

The Company, at its option, may require the customer to supply, own and maintain the stepdown transformer required to step down the voltage from the Company's lines to the voltage required for the customer's service. When the customer supplies such transformation facilities, a discount of 10 cents per KVA of installed transformer capacity will be credited on each monthly bill.
